Education

VIT Bhopal University <i>BTech in Computer Science and Engineering</i>	CGPA: 8.82	2022 – Present Bhopal, Madhya Pradesh
Bhai Parmanad Vidya Mandir School <i>CBSE (XII)</i>	Percentage: 95.6%	2021 New Delhi
Bhai Parmanad Vidya Mandir School <i>CBSE (X)</i>	Percentage: 90.6%	2019 New Delhi

Skills

Web Development: MongoDB, Express.js, ReactJS, Node.js, HTML5, CSS3, Tailwind, Bootstrap, EJS, MySQL,
Programming Languages: C++, Python, Java, JavaScript

Projects

CodeCanvas – MERN Stack E-Learning Platform Dec 2024

- Developed and launched CodeCanvas, an e-learning platform that delivers animated visualizations of Data Structures and Algorithms (DSA) concepts, from foundational topics to advanced trees and graphs.
- Engineered the platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack along with EJS for server-side rendering and integrated Motion Canvas, a TypeScript-based animation library, to create interactive learning content.
- Implemented a comprehensive learning experience, including topic-wise quizzes and coding challenges, to reinforce core concepts and provide hands-on practice.

WanderLust – MERN Stack Airbnb Clone July 2024

- Developed a responsive Airbnb clone using the MERN (MongoDB, Express.js, React.js, Node.js) stack, Bootstrap CSS for UI design, and EJS for server-side rendering.
- Implemented user authentication, property listings, and booking functionality, managing database operations and RESTful API requests for efficient client-server communication.
- Optimized performance, ensured cross-browser compatibility, and utilized MongoDB for data storage and retrieval.

MediBot – LLM Conversational Health Assistant May 2025

- Developed MediBot, a multilingual (English/Hindi) conversational health assistant leveraging the Google Gemini API to provide basic health guidance.
- Engineered core functionality to process multiple input types, including text, voice, and images, with a CNN model integrated for computer vision capabilities.
- Designed and built a user-friendly interface using Streamlit to present the combined conversational AI and computer vision features.

Extra-curriculars & Achievements

- MongoDB Certified DBA 2025**
- Smart India Hackathon 2024:** Successfully advanced to Internal Round 1, where 60 teams were shortlisted from 400 teams. Worked in a team of 6 members on innovative solutions focused on Women Safety.
- American Express Makeathon 2024** Collaborated with a 4-member team to develop a financial literacy prototype, which included conducting a survey of over 100+ individuals to assess their financial knowledge and incorporating animations to make the content more engaging.
- Volunteer – FLAMES Event, Data Science Club 2023:** Coordinated with event management team to manage participant registrations and event logistics, ensuring a seamless event execution.
